

doctrine of obviousness-type double-patenting in view of U.S. Patent No. 4,800,882 to the same applicants. In accordance with the provisions of 37 C.F.R. § 1.321(b), a terminal disclaimer has been provided signed by a representative of the assignee of the present application as well as the prior '882 patent. It is believed that this terminal disclaimer traverses the obviousness-type double-patenting rejection.

It is hereby requested that the present application be reconsidered. No substantive amendments have been made, since the finally rejected claims have been cancelled. No substantive action or additional search is required by the present amendment and remarks. It is therefore requested that the present application be allowed to pass to issuance including claims 28-30.

Respectfully submitted,

By Michael D. Beck
